

# PAUL JOSHUA G. BASSIG

OutSystems Developer

pauljoshuagbassig@gmail.com | +65 88344227 | Singapore

## SUMMARY

OutSystems Developer with a strong background in low-code development and a proven ability to deliver robust, high-performing applications. With hands-on technical support experience, I bring a problem-solving mindset and a strong focus on delivering efficient, user-centric solutions.

## EXPERIENCE

### OutSystems Developer | September 2025 – Present

TG Services PTE. LTD. – Singapore

- Develop, enhance, and maintain an enterprise application for a government project using OutSystems 11 (Traditional Web)
- Manage application support and production incidents, including troubleshooting, root cause analysis, and urgent fixes or workarounds to ensure continuous operations
- Enhance existing features and facilitate application improvements, including solution evaluation, Proofs of Concept (POCs), and demonstrations
- Develop and maintain SOAP and SAP integrations to support data exchange and business processes
- Apply performance optimization, coding best practices, code reviews, and testing to deliver reliable and maintainable solutions
- Collaborate with Business Analysts/QA, developers, and stakeholders throughout the development lifecycle

### OutSystems Developer | January 2025 – August 2026

WSH Experts PTE. LTD. - Singapore

- Developed, enhanced, and maintained applications using OutSystems 11 (Traditional Web)
- Investigated, troubleshot, and resolved production issues to ensure continuous system operations
- Performed bug fixing, application enhancements, and performance tuning, improving system efficiency and user experience
- Integrated applications with SOAP and SAP APIs to support seamless data exchange and process automation
- Conducted code reviews and applied coding standards to deliver maintainable and scalable solutions
- Prepared and maintained technical documentation, test logs, and knowledge artifacts to support team collaboration
- Collaborated with Business Analysts, QA, and stakeholders to deliver high-quality and reliable solutions

### OutSystems Developer | September 2022 – November 2024

Shopping Center Management Corporation (SM Supermalls) - Philippines

- Delivered 3 major projects and supported 6 enterprise applications serving 100,000+ users
- Implemented enhancements, bug fixes, and SQL performance optimizations to improve system efficiency
- Managed deployments using OutSystems Lifetime
- Integrated systems using REST, SOAP, and SAP APIs
- Designed and maintained AWS S3 integrations for file storage
- Led development team for (1) project: requirements gathering, estimates, development, code review, testing, and deployment
- Mentored junior developers and helped enforce coding best practices across the team
- Produced technical documentation and test logs to improve team efficiency
- Supported Python (Django) applications and managed GitHub repositories
- Utilized AI tools for documentation, research, and rapid prototyping

## Information Technology Specialist | July 2019 – September 2022

Shopping Center Management Corporation (SM Supermalls) - Philippines

- Provided Tier 1/2 support for hardware, software, and network issues across head office and mall operations
- Administered Active Directory, Microsoft 365, and endpoint management using SCCM
- Managed IT incidents via ticketing systems, improving resolution efficiency
- Configured and maintained IT infrastructure, ensuring system reliability
- Coordinated with vendors for hardware servicing and warranty claims

## Support Clerk | August 2018 – May 2019

Staff Alliance, Inc. - Philippines

- Performed hardware diagnostics, repair, and configuration of IT equipment
- Managed IT inventory and supported logistics for equipment deployment
- Assisted in system setup and maintenance to ensure operational readiness

## EDUCATION

### Informatics Philippines – Philippines | Bachelor of Science in Information Technology

Information Technology | May 2018

## SKILLS

- **Programming:** JavaScript, VB.NET, HTML, CSS, Python
- **Database:** SQL, Oracle, MySQL, Database Design, Entity Modeling, Performance Tuning
- **Integration & APIs:** REST, SOAP, SAP, JSON, Postman, SoapUI
- **Development & Architecture:** Application Development, Application Enhancement, Software Architecture, Performance Optimization, Unit Testing, Code Reviews, Production Support, Development Best Practices
- **Tools & Methodologies:** Jira, SharePoint, Generative AI, Visual Studio Code, AWS, Google Cloud, Agile, Waterfall
- **Soft Skills:** Problem-Solving, Analytical Thinking, Communication, Teamwork & Collaboration, Adaptability, Leadership

## CERTIFICATIONS

- Architecture Specialist (O11), OutSystems, August 2026
- Google AI, Coursera, May 2026
- Associate Developer (ODC), OutSystems, February 2025
- Develop Critical Thinking, Decision-Making, and Problem-Solving Skills, LinkedIn Learning, November 2024
- Associate Reactive Developer (O11), OutSystems, August 2024
- Strategic Project Management and Design Thinking, MSTConnect Educational Consultancy, June 2024
- AWS: General Immersion Day, Amazon, February 2024
- Redshift Training, Amazon, February 2024
- Agile Development Practices, LinkedIn Learning, January 2023
- Google IT Support Specialization, Coursera, January 2021
- Web Development, July 2019

**Paul Joshua Bassig,**

has successfully completed the certification process to be officially recognized as

**Architecture Specialist  
(O11)**

Since Aug 20, 2026

**Associate Developer  
(ODC)**

Since Feb 22, 2025

**Associate Developer  
(O11)**

Since Aug 19, 2024
